

Student's grades and attendance information all in one secure, easy-to-use web site.

To access Parent/Student Portal click on the icon above.

With the Parent/Student Portal, you can:

- ***Follow** your student's progress throughout the school year online in one secure, convenient location
- ***Access** your student's individual course assignments and teacher information
- ***View** your student's grades, attendance information and student schedule
- ***Communicate** with teachers and learn more about your student's individual workload and responsibilities

If you already have a Parent Portal account or you had a Unified Class account, then use your email address to log in and click on Forgot Password.

If you are new to Parent Portal contact your student's school to get the necessary access id and password. You can get this from a School Counselor or the Main Office.

If you are an existing user of the PowerSchool Mobile App and are having trouble logging in:

1. Completely logout of the app. To do this go to More>Account>Sign Out
2. From the login screen you will be able to go back to the district code page.
3. Try changing the district code to something else random and then switch it back to **THDS**.
4. This should force it to reload the district info which should correct the URL.
5. Login

If this fails, completely uninstall the application, and re-install it.
